NORTHERN AND NORTHWESTERN LAKES SURVEY

NOTE.—Charts of the Great Lakes and connecting waters and St. Lawrence River to the international boundary at St. Regis, of Lake Champlain, and of the New York State canals are prepared and sold by the U. S. Lake Survey Office, Old Customhouse, Detroit, Mich. Charts may also be purchased at the following U. S. engineer offices: 710 Army Building, New York, N. Y.; 486 Broadway, Albany, N. Y.; 540 Federal Building, Buffalo,

N. Y.; and Canal Office, Sault Ste. Marie, Mich. A catalogue (with index map), showing localities, scales, prices, and conditions of sale, may be had upon application at any of these offices.

A descriptive bulletin, which supplements the charts and gives detailed information as to harbors, shore lines and shoals, magnetic determinations, and particulars of changing conditions affecting navigation, is issued free to chart purchasers, upon request. The bulletin is revised annually and issued at the opening of navigation (in April), and supplements thereto are published monthly during the navigation season.

Complete sets of charts and publications may be seen at the U. S. engineer offices in Duluth, Minn., Milwaukee, Wis., Chicago, Ill., Grand Rapids, Mich., Cleveland, Ohio, and Oswego, N. Y., but they are obtainable only at the sales offices above mentioned.

GENERAL INFORMATION

The Superintendent of Documents, Washington, D. C., is authorized by law to sell copies of Government publications and to allow a discount of 25 per cent to book dealers and quantity purchasers on condition that the purchasers will adhere to the public sales price set by the Superintendent of Documents and that publications shall not be used for, or in connection with, advertising purposes.

Publications can not be supplied free to individuals nor forwarded in advance of payment.

The accumulation of publications in this Office amounts to several millions, of which over five million are assorted, forming the sales stock. Many rare books are included, but under the law all must be sold regardless of their age or scarcity. Many of the books have been in stock some time, and are apt to be shopworn. In filling orders the best copy available is sent.

PRICE LISTS

A general price list of public documents is not available, but numerous lists have been prepared on special subjects and any of these will be furnished free, on application, if the person interested will state the subject or subjects concerning which information is desired. It will also be noted that current publications which are for sale are listed in this catalogue.

WEEKLY LIST

In addition to the Price lists, the Documents Office issues a Weekly list of selected United States Government publications for sale by the Superintendent of Documents. Each list is arranged alphabetically by subjects, with annotations and prices, and may be obtained free upon application to the Superintendent of Documents.

HOW TO ORDER PUBLICATIONS

Publications entered in this catalogue that are for sale by the Superintendent of Documents are indicated by a star (*) preceding the price. A dagger (†) indicates that application should be made to the Department, Bureau, or Division issuing the document. A double dagger (‡) indicates that the document is printed for official use. Whenever additional information concerning the method of procuring a document seems necessary, it will be found under the name of the Bureau by which it was published.

In ordering a publication from the Superintendent of Documents, give (if known) the name of the publishing Department, Bureau, or Division, and the title, together with the classification number which is added to the entry at the extreme right; order the Congressional documents and reports by the title, together with the document or report number and the Congress and session, e. g., H. doc. 499, 72-2.

Do not use the L. C. card number in ordering a publication.

HOW TO REMIT

Remittances for the documents marked with a star (*) should be made to the Superintendent of Documents, Washington, D. C., by coupons, postal money order, express order, or check. Currency may be sent at sender's risk. Foreign remittances should be made either by international money order or draft on an American bank.

Postage stamps, foreign money, defaced or smooth coins, will not be accepted.

For the convenience of the general public, coupons that are good until used in exchange for Government publications sold by the Superintendent of Documents may be purchased from his Office in sets of 20 for \$1.00. Address order to Superintendent of Documents, Government Printing Office, Washington, D. C.

No charge is made for postage on documents forwarded to points in United States, Alaska, Guam, Hawaii, Philippine Islands, Puerto Rico, Samoa, or to Canada, Cuba, or Mexico. To other countries the regular rate of postage is charged, and remittances must cover such postage. In computing foreign postage, add one-third of the price of the publication.

TO LIBRARIANS

The number given at the extreme right of each entry (except for Congressional documents and reports) is the classification number by which the publication is arranged in the Library and in the Sales Stock of the Office of the Superintendent of Documents. It can be used as a classification number by such libraries as are using, for the Departmental publications, the arrangement of public documents advocated in the Checklist of United States public documents, 1789-1909. In using this number as a classification number in a library, it should be noted that the shilling mark (/) is used to separate what would ordinarily be a superior number or letter (the numbers or letters immediately following the line) from the main classification number, it not being practicable to print these numbers and letters as superiors in the Monthly catalogue, e. g., the number A 1.23/a: So 96/4 listed in the Monthly catalogue would be A 1.23^a: So 96⁴ in a library.

LIBRARY OF CONGRESS CARDS

Numbers to be used in ordering the printed catalogue cards of the Library of Congress are appended to entries for the more important publications. These are given at the left, with "L. C. card" prefixed. Do not confuse with the Documents Office classification number given at the right. Orders for these cards, remittances in payment for them, and requests for information about them should be addressed to the Librarian of Congress, *not* to the Superintendent of Documents.

MONTHLY CATALOGUE DISTRIBUTION

The Monthly catalogue is sent to public libraries free on application. Subscription price to individuals, 75c. a year, including index; foreign subscription, \$1.35 a year. Back numbers can not be supplied. Notify the Superintendent of Documents of any change of address.

INDEX

An Index to the Monthly catalogue is issued at the end of the fiscal year. This contains index entries for all the numbers issued from July to June, and can be bound with the numbers as an index to the volume. Persons desiring to bind the catalogue at the end of the year should be careful to retain the numbers received monthly, as duplicate copies can not be supplied.

NOTE.—The *Monthly weather review* contains (1) meteorological contributions and bibliography, (2) an interpretative summary and charts of the weather of the month in the United States, and on adjacent oceans, and (3) climatological tables dealing with the weather of the month. The contributions are principally as follows: (a) results of observational or research work in meteorology carried on in the United States or other parts of the world, (b) abstracts or reviews of important meteorological papers and books, and (c) notes.

SPECIAL ARTICLES.—Climate of lower Rio Grande Valley of Texas [with list of literature cited and additional climatic references consulted]; by Edwin J. A 29.1: 932

NOTE.—In the interest of economy in printing, the annual report, chief of Weather Bureau, for the fiscal year ended June 30, 1932, is submitted in abridged form. The most important of the meteorological tables and statements concerning the weather during the calendar year 1931 are presented as usual in pts. 2 and 3, according to Congressional provision, that the continuity of these important facts in the form in which they have been published for many years may not be broken. Because the tables hitherto placed in pt. 4 consist of statistics moderately accessible in other publications, they are now omitted, except the evaporation data, which are transferred to pt. 2. Inasmuch as the more important incidents connected with the activities of the bureau have been covered in the public press, it has been decided to omit in the present report discussion of these and such other topics as usually are reported in pt. 1.

NOTE.—For reasons of economy, the Snow and ice bulletin, heretofore issued during the winter season, has been discontinued as a unit publication. Substantially the same material, however, will be included in the Weekly weather and crop bulletin, with corresponding contraction of the data that heretofore have been included in this publication during the winter. At the beginning of the next growing season the Weekly weather and crop bulletin will resume its normal makeup.

Weather map. Daily weather map [of United States published at Washington, D. C., containing forecasts for all States east of Mississippi River belonging to Washington forecast district], Feb. 1-28, 1933. [1933.] Each 19×24 in. (outside measurement). * Daily, except Sundays and holidays (DWM), \$3.00 a yr., 25c. a month; daily, including Sundays and holidays (DSHM), \$3.60 a yr., 30c. a month; Sunday and holiday maps only (SHM), no subscription for less than 6 months, 25c., 50c. a yr.; foreign subscription, \$9.10 a yr. (maps can not be furnished in quantities unless the order is placed with the Superintendent of Documents, Washington, D. C., in advance of issue).

A 29.18: 933

NOTE.—Subscribers desiring forecasts of weather conditions outside of the Washington forecast district will be referred to the district in which they are located, and all subscriptions forwarded through the Weather Bureau for proper station reference. Maps containing these forecasts are issued daily, except Sundays and holidays, at New Orleans, La., Denver, Colo., Chicago, Ill., San Francisco, Calif., and other field stations, and are designated as station weather maps DD, CM, or E; subscription price, \$2.40 a yr., 20c. a month.

COAST AND GEODETIC SURVEY

NOTE.—The monthly Notice to mariners, formerly issued by the Coast and Geodetic Survey, has been consolidated with and made a part of the Notice to mariners issued by the Lighthouses Bureau, thus making it a joint publication. The charts, coast pilots, inside route pilots, tide tables, and current tables of the Coast and Geodetic Survey are sold at the office of the Survey in Washington, and also by one or more sales agents in each of the important American seaports.

SPECIAL ARTICLES.—Occupational distribution of old-age pensioners in New York.—Employment in relation to mechanization in bituminous-coal industry.—Analysis of Buffalo, N. Y., unemployment surveys, 1929-32; by Frederick E. Croxton.—Conciliation work of Department of Labor, Dec. 1932; by Hugh L. Kerwin.—Statistics of immigration, Nov. 1932; by J. J. Kunna.

NOTE.—The Monthly labor review is the medium through which the Bureau publishes its regular monthly reports on such subjects as prices, wages, industrial disputes, and employment conditions, as also the results of original investigations too brief for bulletin purposes, notices of labor legislation by the States or by Congress, and Federal court decisions affecting labor, which from their importance should be given attention before they could ordinarily appear in the bulletins devoted to these subjects. One free subscription will be given to all labor departments and bureaus, workmen's compensation commissions, and other offices connected with the administration of labor laws and to organizations exchanging publications with the Bureau of Labor Statistics. Others desiring copies may obtain them from the Superintendent of Documents, Washington, D. C., at the prices stated above.

TOPOGRAPHY DIVISION

NOTE.—A list of the post route maps, which are made for the postal service, is given below with the prices at which they are sold to the public. Orders for the maps should be addressed to the Disbursing Clerk, Post Office Department, Washington, D. C., and money orders should be made payable to him.

The Division of Topography has prepared maps showing the rural free delivery routes. They are published in two forms, one giving simply the rural free delivery routes starting from a single given post office, and sold at 75 cents each; the other, the rural free delivery

routes in an entire county, sold at 50 cents each. A scale of 1 inch to 1 mile is generally used. The rural-delivery county maps are printed from the latest negatives. It is impracticable for the Department to keep maps corrected to date at all times. Editions are not issued, but blue print copies are produced in response to special calls addressed to the Disbursing Clerk, Post Office Department, Washington, D. C. These maps should not be confused with the post route maps described in the preceding paragraph.

SMITHSONIAN INSTITUTION

NOTE.—In a recent price-list, the Smithsonian Institution publishes this notice: "Applicants for the publications in this list are requested to state the grounds for their requests, as the Institution is able to supply papers only as an aid to the researches or studies in which they are *especially* interested. These papers are distributed *gratis*, except where price is given, and should be ordered by the *publication numbers* arranged in *sequence*. The serial publications of the Smithsonian Institution are as follows: 1, Smithsonian contributions to knowledge; 2, Smithsonian miscellaneous collections; 3, Smithsonian annual reports. No *sets* of these are for sale or distribution, as most of the volumes are out of print. The papers issued in the series of Contributions to knowledge and Miscellaneous collections are distributed without charge to public libraries, educational establishments, learned societies, and specialists in this country and abroad; and are supplied to other institutions and individuals at the prices indicated. Remittances should be made payable to the 'Smithsonian Institution.' The Smithsonian report volumes and the papers reprinted in separate form therefrom are distributed *gratuitously* by the Institution to libraries and individuals throughout the world. Very few of the Report volumes are now available at the Institution, but many of those of which the Smithsonian edition is exhausted can be purchased from the Superintendent of Documents, Government Printing Office, Washington, D. C. The Institution maintains mailing-lists of public libraries and other educational establishments, but no *general mailing-list of individuals*. A library making application to be listed for Smithsonian publications should state the number of volumes which it contains and the date of its establishment, and have the endorsement of a Member of Congress."

The annual reports are the only Smithsonian publications that are regularly issued as public documents. All the others are paid for from the private funds of the Institution, but as they are usually regarded as public documents and have free transmission by mail, they are listed in the Monthly catalogue.

NATIONAL MUSEUM

NOTE.—The publications of the National Museum comprise an annual report and three scientific series, viz., Proceedings, Bulletins, and Contributions from national herbarium. The editions are distributed to established lists of libraries, scientific institutions, and specialists, any surplus copies being supplied on application. The Proceedings are usually brief technical papers and the Bulletins generally monographs based on the Museum collections in biology, geology, and anthropology. No sets of any of these series can now be furnished.

Beginning with v. 66, the Proceedings are issued only in pamphlet form. The separate papers will be sent to depository libraries and to others designated to receive them, as issued, and a title-page and index will be published for each volume so that the volume may be bound if desired.

STATE DEPARTMENT

NOTE.—With the publication of the first number of the printed Press releases on Oct. 5, 1929, the Department of State inaugurated a new publication program. The daily mimeographed releases are made available to the public weekly in printed form; also, all publications (except laws, Executive orders, proclamations, and treaties) are numbered consecutively in the order in which they are sent to press. Publications of a similar character are brought within well-defined series, and each series publication bears a series number in addition to its publication number. Laws, Executive orders, and proclamations are issued in separate series and are numbered within each series in the order in which they are signed. Treaties are issued in a separate series and are numbered in the order in which they are proclaimed. Indexes to the Press releases are supplied semiannually, as of December 31 and June 30. The Department of State includes in the Press release series, each quarter, a complete list of its publications for the preceding quarter.

The list below frequently includes certain relevant publications issued by other agencies of the Government under requisition of the Department of State and certain relevant Congressional documents.

TAX APPEALS BOARD

NOTE.—Beginning Jan. 9, 1933, the Tax Appeals Board discontinued the publication of its reports in pamphlet form grouping therein possibly 6 or 8 cases, and instead will publish these reports in individual pamphlets, each findings of fact and opinion being printed separately. The opinion numbers are not printed on the reports listed in this Monthly catalogue but the numbers given in brackets and curves in connection with the entries below have been arbitrarily assigned by the Tax Appeals Board. The letter "p" stands for preliminary. These separate opinions are sold on subscription by the Superintendent of Documents, Washington, D. C., price \$1.00 per volume; single copies usually 5c. The price of the bound volumes will be given on application.

GENERAL INFORMATION

The Superintendent of Documents, Washington, D. C., is authorized by law to sell copies of Government publications and to allow a discount of 25 per cent to book dealers and quantity purchasers on condition that the purchasers will adhere to the public sales price set by the Superintendent of Documents and that publications shall not be used for, or in connection with, advertising purposes.

Publication can not be supplied free to individuals nor forwarded in advance of payment.

The accumulation of publications in this Office amounts to several millions, of which over five million are assorted, forming the sales stock. Many rare books are included, but under the law all must be sold regardless of their age or scarcity. Many of the books have been in stock some time, and are apt to be shopworn. In filling orders the best copy available is sent.

PRICE LISTS

A general price list of public documents is not available, but numerous lists have been prepared on special subjects and any of these will be furnished free, on application, if the person interested will state the subject or subjects concerning which information is desired. It will also be noted that current publications which are for sale are listed in this catalogue.

WEEKLY LIST

In addition to the Price lists, the Documents Office issues a Weekly list of selected United States Government publications for sale by the Superintendent of Documents. Each list is arranged alphabetically by subjects, with annotations and prices, and may be obtained free upon application to the Superintendent of Documents.

HOW TO ORDER PUBLICATIONS

Publications entered in this catalogue that are for sale by the Superintendent of Documents are indicated by a star (*) preceding the price. A dagger (†) indicates that application should be made to the Department, Bureau, or Division issuing the document. A double dagger (‡) indicates that the document is printed for official use. Whenever additional information concerning the method of procuring a document seems necessary, it will be found under the name of the Bureau by which it was published.

In ordering a publication from the Superintendent of Documents, give (if known) the name of the publishing Department, Bureau, or Division, and the title, together with the classification number which is added to the entry at the extreme right; order the Congressional documents and reports by the title, together with the document or report number and the Congress and session, e. g., H. doc. 499, 72-2.

Do not use the L. C. card number in ordering a publication.

HOW TO REMIT

Remittances for the documents marked with a star (*) should be made to the **Superintendent of Documents, Washington, D. C.**, by coupons, postal money order, express order, or check. Currency may be sent at sender's risk. Foreign remittances should be made either by international money order or draft on an American bank.

Postage stamps, foreign money, defaced or smooth coins, will not be accepted.

For the convenience of the general public, coupons that are good until used in exchange for Government publications sold by the Superintendent of Documents may be purchased from his Office in sets of 20 for \$1.00. Address order to Superintendent of Documents, Government Printing Office, Washington, D. C.

No charge is made for postage on documents forwarded to points in United States, Alaska, Guam, Hawaii, Philippine Islands, Puerto Rico, Samoa, or to Canada, Cuba, or Mexico. To other countries the regular rate of postage is charged, and remittances must cover such postage. In computing foreign postage, add one-third of the price of the publication.

TO LIBRARIANS

The number given at the extreme right of each entry (except for Congressional documents and reports) is the classification number by which the publication is arranged in the Library and in the Sales Stock of the Office of the Superintendent of Documents. It can be used as a classification number by such libraries as are using, for the Departmental publications, the arrangement of public documents advocated in the Checklist of United States public documents, 1789-1909. In using this number as a classification number in a library, it should be noted that the shilling mark (/) is used to separate what would ordinarily be a superior number or letter (the numbers or letters immediately following the line) from the main classification number, it not being practicable to print these numbers and letters as superiors in the Monthly catalogue, e. g., the number A 1.23/a: So 96/4 listed in the Monthly catalogue would be A 1.23^a: So 96⁴ in a library.

LIBRARY OF CONGRESS CARDS

Numbers to be used in ordering the printed catalogue cards of the Library of Congress are appended to entries for the more important publications. These are given at the left, with "L. C. card" prefixed. Do not confuse with the Documents Office classification number given at the right. Orders for these cards, remittances in payment for them, and requests for information about them should be addressed to the Librarian of Congress, *not* to the Superintendent of Documents.

MONTHLY CATALOGUE DISTRIBUTION

The Monthly catalogue is sent to public libraries free on application. Subscription price to individuals, 75c. a year, including index; foreign subscription, \$1.35 a year. Back numbers can not be supplied. Notify the Superintendent of Documents of any change of address.

INDEX

An Index to the Monthly catalogue is issued at the end of the fiscal year. This contains index entries for all the numbers issued from July to June, and can be bound with the numbers as an index to the volume. Persons desiring to bind the catalogue at the end of the year should be careful to retain the numbers received monthly, as duplicate copies can not be supplied.

Progress maps

NOTE.—These maps show the status of improvement of the Federal-aid system in each State, regardless of whether the construction has been done with the aid of the Federal Government, by the States, by the counties, or by the townships. A system of symbols indicates the type of improvement of all the roads and whether the work was done with or without the assistance of the Federal Government. Sheets are of uniform size, some States requiring 2 or more, and are so issued that they may be punched and put in a loose-leaf atlas. The maps are called progress maps, and the series will be issued periodically to show any change in improvement of the highways.

COMMERCE DEPARTMENT

NOTE.—In its efforts to foster, promote, and develop the foreign and domestic commerce, the mining, manufacturing, shipping, and fishery industries, and the transportation facilities of the United States, the Department of Commerce issues many regular and special publications. The free distribution of publications of the Department is confined almost entirely to Government officers, libraries, educational institutions, the press, and commercial organizations. Others may procure them, at prices stated below, from the Superintendent of Documents, Government Printing Office, Washington, D.C., to whom remittances should be sent direct, as his office is not a part of the Department of Commerce. Coast pilots, inside route pilots, tide tables, current tables, and charts are sold by the Coast and Geodetic Survey.

COAST AND GEODETIC SURVEY

NOTE.—The monthly Notice to mariners, formerly issued by the Coast and Geodetic Survey, has been consolidated with and made a part of the Notice to mariners issued by the Lighthouses Bureau, thus making it a joint publication. The charts, coast pilots, inside route pilots, tide tables, and current tables of the Coast and Geodetic Survey are sold at the office of the Survey in Washington, and also by one or more sales agents in each of the important American seaports.

NOTE.—The Monthly labor review is the medium through which the Bureau publishes its regular monthly reports on such subjects as prices, wages, industrial disputes, and employment conditions, as also the results of original investigations too brief for bulletin purposes, notices of labor legislation by the States or by Congress, and Federal court decisions affecting labor, which from their importance should be given attention before they could ordinarily appear in the bulletins devoted to these subjects. One free subscription will be given to all labor departments and bureaus, workmen's compensation commissions, and other offices connected with the administration of labor laws and to organizations exchanging publications with the Bureau of Labor Statistics. Others desiring copies may obtain them from the Superintendent of Documents, Washington, D.C., at the prices stated above.

TOPOGRAPHY DIVISION

NOTE.—The Division of Topography has prepared maps showing the rural free delivery routes. They are published in two forms, one giving simply the rural free delivery routes starting from a single given post office, and sold at 75 cents each; the other, the rural free delivery routes in an entire county, sold at 50 cents each. A scale of 1 inch to 1 mile is generally used. The rural-delivery county maps are printed from the latest negatives. It is impracticable for the Department to keep maps corrected to date at all times. Editions are not issued, but blue print copies are produced in response to special calls addressed to the Disbursing Clerk, Post Office Department, Washington, D. C. These maps should not be confused with the post route maps, for which see Monthly catalogue for February, 1933, page 660.

SMITHSONIAN INSTITUTION

NOTE.—In a recent price-list, the Smithsonian Institution publishes this notice: "Applicants for the publications in this list are requested to state the grounds for their requests, as the Institution is able to supply papers only as an aid to the researches or studies in which they are *especially* interested. These papers are distributed *gratis*, except where price is given, and should be ordered by the *publication numbers* arranged in *sequence*. The serial publications of the Smithsonian Institution are as follows: 1, Smithsonian contributions to knowledge; 2, Smithsonian miscellaneous collections; 3, Smithsonian annual reports. No *sets* of these are for sale or distribution, as most of the volumes are out of print. The papers issued in the series of Contributions to knowledge and Miscellaneous collections are distributed without charge to public libraries, educational establishments, learned societies; and specialists in this country and abroad; and are supplied to other institutions and individuals at the prices indicated. Remittances should be made payable to the 'Smithsonian Institution.' The Smithsonian report volumes and the papers reprinted in separate form therefrom are distributed *gratuitously* by the Institution to libraries and individuals throughout the world. Very few of the Report volumes are now available at the Institution, but many of those of which the Smithsonian edition is exhausted can be purchased from the Superintendent of Documents, Government Printing Office, Washington, D. C. The Institution maintains mailing-lists of public libraries and other educational establishments, but no *general mailing-list of individuals*. A library making application to be listed for Smithsonian publications should state the number of volumes which it contains and the date of its establishment, and have the endorsement of a Member of Congress."

The annual reports are the only Smithsonian publications that are regularly issued as public documents. All the others are paid for from the private funds of the Institution, but as they are usually regarded as public documents and have free transmission by mail they are listed in the Monthly catalogue.

NATIONAL MUSEUM

NOTE.—The publications of the National Museum comprise an annual report and three scientific series, viz., Proceedings, Bulletins, and Contributions from national herbarium. The editions are distributed to established lists of libraries, scientific institutions, and specialists, any surplus copies being supplied on application. The Proceedings are usually brief technical papers and the Bulletins generally monographs based on the Museum collections in biology, geology, and anthropology. No sets of any of these series can now be furnished.

Beginning with v. 66, the Proceedings are issued only in pamphlet form. The separate papers will be sent to depository libraries and to others designated to receive them, as issued, and a title-page and index will be published for each volume so that the volume may be bound if desired.

STATE DEPARTMENT

NOTE.—With the publication of the first number of the printed Press releases on Oct. 5, 1929, the Department of State inaugurated a new publication program. The daily mimeographed releases are made available to the public weekly in printed form; also, all publications (except laws, Executive orders, proclamations, and treaties) are numbered consecutively in the order in which they are sent to press. Publications of a similar character are brought within well-defined series, and each series publication bears a series number in addition to its publication number. Laws, Executive orders, and proclamations are issued in separate series and are numbered within each series in the order in which they are signed. Treaties are issued in a separate series and are numbered in the order in which they are proclaimed. Indexes to the Press releases are supplied semiannually, as of December 31 and June 30. The Department of State includes in the Press release series, each quarter, a complete list of its publications for the preceding quarter.

The list below frequently includes certain relevant publications issued by other agencies of the Government under requisition of the Department of State and certain relevant Congressional documents.

Army regulations.

NOTE.—The Army regulations are issued in pamphlet form for insertion in loose-leaf binders. The names of such of the more important administrative subjects as may seem appropriate, arranged in proper sequence, are numbered in a single series, and each name so numbered constitutes the title and number of a pamphlet containing certain administrative regulations pertaining thereto. Where more than one pamphlet is required for the administrative regulations pertaining to any such title, additional pamphlets will be issued in a separate sub-series.

How to order publications—See information following Contents

GENERAL INFORMATION

The Superintendent of Documents, Washington, D. C., is authorized by law to sell copies of Government publications and to allow a discount of 25 per cent to book dealers and quantity purchasers on condition that the purchasers will adhere to the public sales price set by the Superintendent of Documents and that publications shall not be used for, or in connection with, advertising purposes.

Publications can not be supplied free to individuals nor forwarded in advance of payment.

The accumulation of publications in this Office amounts to several millions, of which over five million are assorted, forming the sales stock. Many rare books are included, but under the law all must be sold regardless of their age or scarcity. Many of the books have been in stock some time, and are apt to be shopworn. In filling orders the best copy available is sent.

PRICE LISTS

A general price list of public documents is not available, but numerous lists have been prepared on special subjects and any of these will be furnished free, on application, if the person interested will state the subject or subjects concerning which information is desired. It will also be noted that current publications which are for sale are listed in this catalogue.

WEEKLY LIST

In addition to the Price lists, the Documents Office issues a Weekly list of selected United States Government publications for sale by the Superintendent of Documents. Each list is arranged alphabetically by subjects, with annotations and prices, and may be obtained free upon application to the Superintendent of Documents.

HOW TO ORDER PUBLICATIONS

Publications entered in this catalogue that are for sale by the Superintendent of Documents are indicated by a star (*) preceding the price. A dagger (†) indicates that application should be made to the Department, Bureau, or Division issuing the document. A double dagger (‡) indicates that the document is printed for official use. Whenever additional information concerning the method of procuring a document seems necessary, it will be found under the name of the Bureau by which it was published.

In ordering a publication from the Superintendent of Documents, give (if known) the name of the publishing Department, Bureau, or Division, and the title, together with the classification number which is added to the entry at the extreme right; order the Congressional documents and reports by the title, together with the document or report number and the Congress and session, e. g., H. doc. 19, 73-1.

Do not use the L. C. card number in ordering a publication.

HOW TO REMIT

Remittances for the documents marked with a star (*) should be made to the Superintendent of Documents, Washington, D. C., by coupons, postal money order, express order, or check. Currency may be sent at sender's risk. Foreign remittances should be made either by international money order or draft on an American bank.

Postage stamps, foreign money, defaced or smooth coins, will not be accepted.

For the convenience of the general public, coupons that are good until used in exchange for Government publications sold by the Superintendent of Documents may be purchased from his Office in sets of 20 for \$1.00. Address order to Superintendent of Documents, Government Printing Office, Washington, D. C.

No charge is made for postage on documents forwarded to points in United States, Alaska, Guam, Hawaii, Philippine Islands, Puerto Rico, Samoa, or to Canada, Cuba, or Mexico. To other countries the regular rate of postage is charged, and remittances must cover such postage. In computing foreign postage, add one-third of the price of the publication.

TO LIBRARIANS

The number given at the extreme right of each entry (except for Congressional documents and reports) is the classification number by which the publication is arranged in the Library and in the Sales Stock of the Office of the Superintendent of Documents. It can be used as a classification number by such libraries as are using, for the Departmental publications, the arrangement of public documents advocated in the Checklist of United States public documents, 1789-1909. In using this number as a classification number in a library, it should be noted that the shilling mark (/) is used to separate what would ordinarily be a superior number or letter (the numbers or letters immediately following the line) from the main classification number, it not being practicable to print these numbers and letters as superiors in the Monthly catalogue, e. g., the number A 1.23/a: So 96/4 listed in the Monthly catalogue would be A 1.23^a: So 96⁴ in a library.

LIBRARY OF CONGRESS CARDS

Numbers to be used in ordering the printed catalogue cards of the Library of Congress are appended to entries for the more important publications. These are given at the left, with "L. C. card" prefixed. Do not confuse with the Documents Office classification number given at the right. Orders for these cards, remittances in payment for them, and requests for information about them should be addressed to the Librarian of Congress, *not* to the Superintendent of Documents.

MONTHLY CATALOGUE DISTRIBUTION

The Monthly catalogue is sent to public libraries free on application. Subscription price to individuals, 75c. a year, including index; foreign subscription, \$1.35 a year. Back numbers can not be supplied. Notify the Superintendent of Documents of any change of address.

INDEX

An Index to the Monthly catalogue is issued at the end of the fiscal year. This contains index entries for all the numbers issued from July to June, and can be bound with the numbers as an index to the volume. Persons desiring to bind the catalogue at the end of the year should be careful to retain the numbers received monthly, as duplicate copies can not be supplied.

COMMERCE DEPARTMENT

NOTE.—In its efforts to foster, promote, and develop the foreign and domestic commerce, the mining, manufacturing, shipping, and fishery industries, and the transportation facilities of the United States, the Department of Commerce issues many regular and special publications. The free distribution of publications of the Department is confined almost entirely to Government officers, libraries, educational institutions, the press, and commercial organizations. Others may procure them, at prices stated below, from the Superintendent of Documents, Government Printing Office, Washington, D. C., to whom remittances should be sent direct, as his office is not a part of the Department of Commerce. Coast pilots, inside route pilots, tide tables, current tables, and charts are sold by the Coast and Geodetic Survey.

GEOLOGICAL SURVEY

NOTE.—The publications of the United States Geological Survey consist of Annual reports, Monographs, Professional papers, Bulletins, Water-supply papers, topographic maps (some of which bear descriptive texts), base and contour and other maps of the United States and of the States, folios of the Geologic atlas of the United States, and the World atlas of commercial geology (pt. 1, out of print). Practically all of them are sale publications; the exceptions are indicated by the dagger (†). The maps and folios and the World atlas of commercial geology, pt. 2, are sold by the Geological Survey at Washington, D. C. A discount of 40 per cent is allowed on any order for maps or folios that amounts to \$5.00 at the retail price. This discount applies to an order for either maps or folios alone or for maps and folios together. Remittance for these publications should be made by money order payable to the Director of the Geological Survey, Washington, D. C. Orders for other publications that are for sale should be sent to the Superintendent of Documents, Washington, D. C. For topographic maps see p. 807-809.

Topographic maps

NOTE.—The Geological Survey is making a series of topographic maps that will eventually cover the whole United States, also Alaska and Hawaii. The individual maps are projected to represent quadrangle areas rather than political divisions, and each map is designated by the name of some prominent town or natural feature in the area mapped. The scales most commonly used are 1:31,680, 1:62,500, and 1:125,000, corresponding, approximately, to ¼ mile, 1 mile, and 2 miles to 1 inch.

The area covered differs with the latitude, but the average area is 58, 280, or 920 square miles, respectively, for these three scales. Topographic maps are printed on uniform-sized paper, about 20 by 16½ inches, and the maps of the quadrangle areas represented thereon are about 17½ inches long and 12 to 15 inches wide, according to latitude. For some areas of particular importance special large-scale maps are published. A general description of topographic maps and a list of the symbols used are printed on the reverse of each sheet.

About 45 per cent of the area of the country, excluding Alaska, has been mapped, every State being represented. Connecticut, Delaware, the District of Columbia, Hawaii, Maryland, Massachusetts, New Jersey, New York, Ohio, Rhode Island, and West Virginia are completely mapped. Maps of the regular size are sold by the Geological Survey at 10c. each, but a discount of 40 per cent is allowed on any order which amounts to \$5.00 at the retail price. The discount is allowed on an order for either maps or folios alone, or for maps and folios together.

NOTE.—The Reclamation era is a magazine for the farmers and the personnel of the bureau. Its aim is to assist the settlers in the proper use of water, to help them in overcoming their agricultural difficulties, to instruct them in diversifying and marketing their crops, to inspire the employees of the bureau and chronicle engineering problems and achievements, and to promote a wholehearted spirit of cooperation, so that reclamation shall attain the greatest heights of success. The subscription price of the Reclamation era is 75c. a year, foreign subscription, \$1.05, payable in advance. Subscriptions should be sent to the Commissioner, Bureau of Reclamation, Washington, D. C., and remittance in the form of postal money order or New York draft should be made payable to the Bureau of Reclamation. Postage stamps are not acceptable in payment of subscription.

NOTE.—The *Monthly labor review* is the medium through which the Bureau publishes its regular monthly reports on such subjects as prices, wages, industrial disputes, and employment conditions, as also the results of original investigations too brief for bulletin purposes, notices of labor legislation by the States or by Congress, and Federal court decisions affecting labor, which from their importance should be given attention before they could ordinarily appear in the bulletins devoted to these subjects. One free subscription will be given to all labor departments and bureaus, workmen's compensation commissions, and other offices connected with the administration of labor laws and to organizations exchanging publications with the Bureau of Labor Statistics. Others desiring copies may obtain them from the Superintendent of Documents, Washington, D. C., at the prices stated above.

CATALOGUE DIVISION

Subject headings. List of subject headings, 3d edition, additions and changes, list 21; Oct.-Dec. 1932. [1933.] 6 leaves, narrow 8° LC 9.6/3:3/21

NOTE.—In response to numerous requests, sheets containing lists of additions and changes for the 3d edition of the List will be supplied at intervals of about 3 months. They will be printed on one side only, on thin paper. They will be numbered consecutively and show the period covered. Enough libraries have expressed a preference for the gummed paper to justify printing on that paper enough copies of List 21 and future issues to meet their needs. With the list for December will be sent a charge slip for the issues supplied during the calendar year at 8c. for the first page and .015c. for each additional page of each list. These lists will be kept in stock until the 4th edition of the List is issued.

TOPOGRAPHY DIVISION

NOTE.—The Division of Topography has prepared maps showing the rural free delivery routes. They are published in two forms, one giving simply the rural free delivery routes starting from a single given post office, and sold at 75 cents each; the other, the rural free delivery routes in an entire county, sold at 50 cents each. A scale of 1 inch to 1 mile is generally used. The rural-delivery county maps are printed from the latest negatives. It is impracticable for the Department to keep maps corrected to date at all times. Editions are not issued, but blue print copies are produced in response to special calls addressed to the Disbursing Clerk, Post Office Department, Washington, D.C. These maps should not be confused with the post route maps, for which see Monthly catalogue for February, 1933, page 660.

SMITHSONIAN INSTITUTION

NOTE.—In a recent price-list, the Smithsonian Institution publishes this notice: "Applicants for the publications in this list are requested to state the grounds for their requests, as the Institution is able to supply papers only as an aid to the researches or studies in which they are *especially* interested. These papers are distributed *gratis*, except where price is given, and should be ordered by the *publication numbers* arranged in *sequence*. The serial publications of the Smithsonian Institution are as follows: 1, Smithsonian contributions to knowledge; 2, Smithsonian miscellaneous collections; 3, Smithsonian annual reports. No *sets* of these are for sale or distribution, as most of the volumes are out of print. The papers issued in the series of Contributions to knowledge and Miscellaneous collections are distributed without charge to public libraries, educational establishments, learned societies, and specialists in this country and abroad; and are supplied to other institutions and individuals at the prices indicated. Remittances should be made payable to the 'Smithsonian Institution.' The Smithsonian report volumes and the papers reprinted in separate form therefrom are distributed *gratuitously* by the Institution to libraries and individuals throughout the world. Very few of the Report volumes are now available at the Institution, but many of those of which the Smithsonian edition is exhausted can be purchased from the Superintendent of Documents, Government Printing Office, Washington, D. C. The Institution maintains mailing-lists of public libraries and other educational establishments, but no *general mailing-list of individuals*. A library making application to be listed for Smithsonian publications should state the number of volumes which it contains and the date of its establishment, and have the endorsement of a Member of Congress."

The annual reports are the only Smithsonian publications that are regularly issued as public documents. All the others are paid for from the private funds of the Institution, but as they are usually regarded as public documents and have free transmission by mail they are listed in the Monthly catalogue.

NATIONAL MUSEUM

NOTE.—The publications of the National Museum comprise an annual report and three scientific series, viz., Proceedings, Bulletins, and Contributions from national herbarium. The editions are distributed to established lists of libraries, scientific institutions, and specialists, any surplus copies being supplied on application. The Proceedings are usually brief technical papers and the Bulletins generally monographs based on the Museum collections in biology, geology, and anthropology. No sets of any of these series can now be furnished.

Beginning with v. 66, the Proceedings are issued only in pamphlet form. The separate papers will be sent to depository libraries and to others designated to receive them, as issued, and a title-page and index will be published for each volume so that the volume may be bound if desired.

STATE DEPARTMENT

NOTE.—With the publication of the first number of the printed Press releases on Oct. 5, 1929, the Department of State inaugurated a new publication program. The daily mimeographed releases are made available to the public weekly in printed form; also, all publications (except laws, Executive orders, proclamations, and treaties) are numbered consecutively in the order in which they are sent to press. Publications of a similar character are brought within well-defined series, and each series publication bears a series number in addition to its publication number. Laws, Executive orders, and proclamations are issued in separate series and are numbered within each series in the order in which they are signed. Treaties are issued in a separate series and are numbered in the order in which they are proclaimed. Indexes to the Press releases are supplied semiannually, as of December 31 and June 30. The Department of State includes in the Press release series, each quarter, a complete list of its publications for the preceding quarter.

The list below frequently includes certain relevant publications issued by other agencies of the Government under requisition of the Department of State and certain relevant Congressional documents.

Under the practice of the State Department prior to the inauguration of the Executive agreement series (no. 44 of which is listed below) the material would have been published in the Treaty series. Those desiring to maintain a joint file of the Treaty series and the Executive agreement series may insert each number of the Executive agreement series in its appropriate place in the Treaty series, which place will be indicated in each number of the Executive agreement series.

NORTHERN AND NORTHWESTERN LAKES SURVEY

NOTE.—Charts of the Great Lakes and connecting waters and St. Lawrence River to the international boundary at St. Regis, of Lake Champlain, and of the New York State canals are prepared and sold by the U. S. Lake Survey Office, Old Customhouse, Detroit, Mich. Charts may also be purchased at the following U. S. engineer offices: 710 Army Building, New York, N. Y.; 486 Broadway, Albany, N. Y.; 540 Federal Building, Buffalo, N. Y.; and Canal Office, Sault Ste. Marie, Mich. A catalogue (with index map), showing localities, scales, prices, and conditions of sale, may be had upon application at any of these offices.

A descriptive bulletin, which supplements the charts and gives detailed information as to harbors, shore lines and shoals, magnetic determinations, and particulars of changing conditions affecting navigation, is issued free to chart purchasers, upon request. The bulletin is revised annually and issued at the opening of navigation (in April), and supplements thereto are published monthly during the navigation season.

Complete sets of charts and publications may be seen at the U. S. engineer offices in Duluth, Minn., Milwaukee, Wis., Chicago, Ill., Grand Rapids, Mich., Cleveland, Ohio, and Oswego, N. Y., but they are obtainable only at the sales offices above mentioned.

GENERAL INFORMATION

The Superintendent of Documents, Washington, D.C., is authorized by law to sell copies of Government publications and to allow a discount of 25 per cent to book dealers and quantity purchasers on condition that the purchasers will adhere to the public sales price set by the Superintendent of Documents and that publications shall not be used for, or in connection with, advertising purposes.

Publications cannot be supplied free to individuals nor forwarded in advance of payment.

The accumulation of publications in this Office amounts to several millions, of which over five million are assorted, forming the sales stock. Many rare books are included, but under the law all must be sold regardless of their age or scarcity. Many of the books have been in stock some time, and are apt to be shopworn. In filling orders the best copy available is sent.

PRICE LISTS

A general price list of public documents is not available, but numerous lists have been prepared on special subjects and any of these will be furnished free, on application, if the person interested will state the subject or subjects concerning which information is desired. It will also be noted that current publications which are for sale are listed in this catalogue.

WEEKLY LIST

In addition to the Price lists, the Documents Office issues a Weekly list of selected United States Government publications for sale by the Superintendent of Documents. Each list is arranged alphabetically by subjects, with annotations and prices, and may be obtained free upon application to the Superintendent of Documents.

HOW TO ORDER PUBLICATIONS

Publications entered in this catalogue that are for sale by the Superintendent of Documents are indicated by a star (*) preceding the price. A dagger (†) indicates that application should be made to the Department, Bureau, or Division issuing the document. A double dagger (‡) indicates that the document is printed for official use. Whenever additional information concerning the method of procuring a document seems necessary, it will be found under the name of the Bureau by which it was published.

In ordering a publication from the Superintendent of Documents, give (if known) the name of the publishing Department, Bureau, or Division, and the title, together with the classification number which is added to the entry at the extreme right; order the Congressional documents and reports by the title, together with the document or report number and the Congress and session, e.g., H. doc. 19, 73-1.

Do not use the L.C. card number in ordering a publication.

HOW TO REMIT

Remittances for the documents marked with a star (*) should be made to the **Superintendent of Documents, Washington, D. C.**, by coupons, postal money order, express order, or check. Currency may be sent at sender's risk. Foreign remittances should be made either by international money order or draft on an American bank.

Postage stamps, foreign money, defaced or smooth coins, will not be accepted.

For the convenience of the general public, coupons that are good until used in exchange for Government publications sold by the Superintendent of Documents may be purchased from his Office in sets of 20 for \$1.00. Address order to Superintendent of Documents, Government Printing Office, Washington, D.C.

No charge is made for postage on documents forwarded to points in United States, Alaska, Guam, Hawaii, Philippine Islands, Puerto Rico, Samoa, or to Canada, Cuba, or Mexico. To other countries the regular rate of postage is charged, and remittances must cover such postage. In computing foreign postage, add one-third of the price of the publication.

TO LIBRARIANS

The number given at the extreme right of each entry (except for Congressional documents and reports) is the classification number by which the publication is arranged in the Library and in the Sales Stock of the Office of the Superintendent of Documents. It can be used as a classification number by such libraries as are using, for the Departmental publications, the arrangement of public documents advocated in the Checklist of United States public documents, 1789-1909. In using this number as a classification number in a library, it should be noted that the shilling mark (/) is used to separate what would ordinarily be a superior number or letter (the numbers or letters immediately following the line) from the main classification number, it not being practicable to print these numbers and letters as superiors in the Monthly catalogue, e.g., the number A 1.23/a: So 96/4 listed in the Monthly catalogue would be A 1.23^a: So 96⁴ in a library.

LIBRARY OF CONGRESS CARDS

Numbers to be used in ordering the printed catalogue cards of the Library of Congress are appended to entries for the more important publications. These are given at the left, with "L.C. card" prefixed. Do not confuse with the Documents Office classification number given at the right. Orders for these cards, remittances in payment for them, and requests for information about them should be addressed to the Librarian of Congress, *not* to the Superintendent of Documents.

MONTHLY CATALOGUE DISTRIBUTION

The Monthly catalogue is sent to public libraries free on application. Subscription price to individuals, 75c. a year, including index; foreign subscription, \$1.35 a year. Back numbers can not be supplied. Notify the Superintendent of Documents of any change of address.

INDEX

An Index to the Monthly catalogue is issued at the end of the fiscal year. This contains index entries for all the numbers issued from July to June, and can be bound with the numbers as an index to the volume. Persons desiring to bind the catalogue at the end of the year should be careful to retain the numbers received monthly, as duplicate copies cannot be supplied.

Progress maps

NOTE.—These maps show the status of improvement of the Federal-aid system in each State, regardless of whether the construction has been done with the aid of the Federal Government, by the States, by the counties, or by the townships. A system of symbols indicates the type of improvement of all the roads and whether the work was done with or without the assistance of the Federal Government. Sheets are of uniform size, some States requiring 2 or more, and are so issued that they may be punched and put in a loose-leaf atlas. The maps are called progress maps, and the series will be issued periodically to show any change in improvement of the highways.

FARM CREDIT ADMINISTRATION

NOTE.—Under an Executive order promulgated by the President, Mar. 27, 1933, which order became effective May 27, the following existing agencies of the Federal Government, having to do solely with farm credits, were consolidated into a single agency to be known as the Farm Credit Administration: 1, Federal Farm Board; 2, Federal Farm Loan Bureau; 3, that portion of the functions of the Reconstruction Finance Corporation which has to do with the management of the 12 regional agricultural credit corporations and their branches; 4, Crop Production Loan Office and Seed Loan Office of the Agriculture Department. The chairman of the Federal Farm Board was continued in office as Governor of the Farm Credit Administration, and the Farm Loan Commissioner, a member

of the Federal Farm Loan Board (which was the executive head of the Federal Farm Loan Bureau), was continued in office subject to the jurisdiction of the Governor of the Farm Credit Administration.

Sec. 40 of H.R. 3835, 73d Congress (Public 10, approved May 12, 1933), provides for the perfecting of the organization.

For one publication issued by the Federal Farm Board previous to its consolidation with the Farm Credit Administration, see below.

Loans to farmers by Farm Loan Commissioner (emergency farm mortgage act of 1933), 1, to refinance indebtedness of farmers, 2, to provide working capital for farm operations, 3, to redeem or repurchase foreclosed farm property.

SPECIAL ARTICLES.—[Cooperative self-help activities among unemployed, 3d article]:
Barter and exchange movement in Milwaukee, Wis. [etc.].—Conciliation work of De-
partment of Labor, Mar. 1933; by Hugh L. Kerwin.

NOTE.—The Monthly labor review is the medium through which the Bureau publishes
its regular monthly reports on such subjects as prices, wages, industrial disputes, and
employment conditions, as also the results of original investigations too brief for bul-
letin purposes, notices of labor legislation by the States or by Congress, and Federal
court decisions affecting labor, which from their importance should be given attention
before they could ordinarily appear in the bulletins devoted to these subjects. One free
subscription will be given to all labor departments and bureaus, workmen's compensa-
tion commissions, and other offices connected with the administration of labor laws and
to organizations exchanging publications with the Bureau of Labor Statistics. Others
desiring copies may obtain them from the Superintendent of Documents, Washington,
D.C., at the prices stated above.

TOPOGRAPHY DIVISION

NOTE.—The Division of Topography has prepared maps showing the rural free delivery routes. They are published in two forms, one giving simply the rural free delivery routes starting from a single given post office, and sold at 75 cents each; the other, the rural free delivery routes in an entire county, sold at 50 cents each. A scale of 1 inch to 1 mile is generally used. The rural-delivery county maps are printed from the latest negatives. It is impracticable for the Department to keep maps corrected to date at all times. Editions are not issued, but blue print copies are produced in response to special calls addressed to the Disbursing Clerk, Post Office Department, Washington, D.C. These maps should not be confused with the post route maps, for which see Monthly catalogue for February, 1933, page 660.

SMITHSONIAN INSTITUTION

NOTE.—In a recent price-list, the Smithsonian Institution publishes this notice: "Applicants for the publications in this list are requested to state the grounds for their requests, as the Institution is able to supply papers only as an aid to the researches or studies in which they are especially interested. These papers are distributed *gratis*, except where price is given, and should be ordered by the *publication numbers* arranged in *sequence*. The serial publications of the Smithsonian Institution are as follows: 1, Smithsonian contributions to knowledge; 2, Smithsonian miscellaneous collections; 3, Smithsonian annual reports. No *sets* of these are for sale or distribution, as most of the volumes are out of print. The papers issued in the series of Contributions to knowledge and Miscellaneous collections are distributed without charge to public libraries, educational establishments, learned societies, and specialists in this country and abroad; and are supplied to other institutions and individuals at the prices indicated. Remittances should

be made payable to the 'Smithsonian Institution.' The Smithsonian report volumes and the papers reprinted in separate form therefrom are distributed *gratuitously* by the Institution to libraries and individuals throughout the world. Very few of the Report volumes are now available at the Institution, but many of those of which the Smithsonian edition is exhausted can be purchased from the Superintendent of Documents, Government Printing Office, Washington, D.C. The Institution maintains mailing-lists of public libraries and other educational establishments, but no general mailing-list of individuals. A library making application to be listed for Smithsonian publications should state the number of volumes which it contains and the date of its establishment, and have the endorsement of a Member of Congress."

The annual reports are the only Smithsonian publications that are regularly issued as public documents. All the others are paid for from the private funds of the Institution, but as they are usually regarded as public documents and have free transmission by mail they are listed in the Monthly catalogue.

NATIONAL MUSEUM

NOTE.—The publications of the National Museum comprise an annual report and three scientific series, viz., Proceedings, Bulletins, and Contributions from national herbarium. The editions are distributed to established lists of libraries, scientific institutions, and specialists, any surplus copies being supplied on application. The Proceedings are usually brief technical papers and the Bulletins generally monographs based on the Museum collections in biology, geology, and anthropology. No sets of any of these series can now be furnished.

Beginning with v. 66, the Proceedings are issued only in pamphlet form. The separate papers will be sent to depository libraries and to others designated to receive them, as issued, and a title-page and index will be published for each volume so that the volume may be bound if desired.

NORTHERN AND NORTHWESTERN LAKES SURVEY

NOTE.—Charts of the Great Lakes and connecting waters and St. Lawrence River to the international boundary at St. Regis, of Lake Champlain, and of the New York State canals are prepared and sold by the U.S. Lake Survey Office, Old Customhouse, Detroit, Mich. Charts may also be purchased at the following U.S. engineer offices: 710 Army Building, New York, N.Y.; 486 Broadway, Albany, N.Y.; 540 Federal Building, Buffalo, N.Y.; and Canal Office, Sault Ste. Marie, Mich. A catalogue (with index map), showing localities, scales, prices, and conditions of sale, may be had upon application at any of these offices.

A descriptive bulletin, which supplements the charts and gives detailed information as to harbors, shore lines and shoals, magnetic determinations, and particulars of changing conditions affecting navigation, is issued free to chart purchasers, upon request. The bulletin is revised annually and issued at the opening of navigation (in April), and supplements thereto are published monthly during the navigation season.

Complete sets of charts and publications may be seen at the U.S. engineer offices in Duluth, Minn., Milwaukee, Wis., Chicago, Ill., Grand Rapids, Mich., Cleveland, Ohio, and Oswego, N.Y., but they are obtainable only at the sales offices above mentioned.

Finance circulars. †

NOTE.—Finance circulars contain instructions and information of a relatively permanent character pertaining to the performance of the technical duties of finance and disbursing officers and of property and contract auditors. Though bearing a date, they are issued in a single lettered series without regard to calendar year, each to contain subject matter of related character. Each circular is designated by a letter and is published in a numbered series of separate pamphlets classified according to subject matter. Changes to Finance circulars are published in a single numerical series, applicable to all pamphlets, without regard to calendar year. When any portion of a numbered Finance circular has been embodied in a lettered circular, that portion of the numbered circular will be rescinded.

GENERAL INFORMATION

The Superintendent of Documents, Washington, D.C., is authorized by law to sell copies of Government publications and to allow a discount of 25 percent to book dealers and quantity purchasers on condition that the purchasers will adhere to the public sales price set by the Superintendent of Documents and that publications shall not be used for, or in connection with, advertising purposes.

Publications cannot be supplied free to individuals nor forwarded in advance of payment.

The accumulation of publications in this Office amounts to several millions, of which over five million are assorted, forming the sales stock. Many rare books are included, but under the law all must be sold regardless of their age or scarcity. Many of the books have been in stock some time, and are apt to be shopworn. In filling orders the best copy available is sent.

PRICE LISTS

A general price list of public documents is not available, but numerous lists have been prepared on special subjects and any of these will be furnished free, on application, if the person interested will state the subject or subjects concerning which information is desired. It will also be noted that current publications which are for sale are listed in this catalogue.

WEEKLY LIST

In addition to the Price lists, the Documents Office issues a Weekly list of selected United States Government publications for sale by the Superintendent of Documents. Each list is arranged alphabetically by subjects, with annotations and prices, and may be obtained free upon application to the Superintendent of Documents.

HOW TO ORDER PUBLICATIONS

Publications entered in this catalogue that are for sale by the Superintendent of Documents are indicated by a star (*) preceding the price. A dagger (†) indicates that application should be made to the Department, Bureau, or Division issuing the document. A double dagger (‡) indicates that the document is printed for official use. Whenever additional information concerning the method of procuring a document seems necessary, it will be found under the name of the Bureau by which it was published.

In ordering a publication from the Superintendent of Documents, give (if known) the name of the publishing Department, Bureau, or Division, and the title, together with the classification number which is added to the entry at the extreme right; order the Congressional documents and reports by the title, together with the document or report number and the Congress and session, e.g., H. doc. 19, 73-1.

Do not use the L.C. card number in ordering a publication.

HOW TO REMIT

Remittances for the documents marked with a star (*) should be made to the Superintendent of Documents, Washington, D.C., by coupons, postal money order, express order, or check. Currency may be sent at sender's risk. Foreign remittances should be made either by international money order or draft on an American bank.

Postage stamps, foreign money, defaced or smooth coins, will not be accepted.

For the convenience of the general public, coupons that are good until used in exchange for Government publications sold by the Superintendent of Documents may be purchased from his Office in sets of 20 for \$1.00. Address order to Superintendent of Documents, Government Printing Office, Washington, D.C.

No charge is made for postage on documents forwarded to points in United States, Alaska, Guam, Hawaii, Philippine Islands, Puerto Rico, Samoa, or to Canada, Cuba, or Mexico. To other countries the regular rate of postage is charged, and remittances must cover such postage. In computing foreign postage, add one-third of the price of the publication.

TO LIBRARIANS

The number given at the extreme right of each entry (except for Congressional documents and reports) is the classification number by which the publication is arranged in the Library and in the Sales Stock of the Office of the Superintendent of Documents. It can be used as a classification number by such libraries as are using, for the Departmental publications, the arrangement of public documents advocated in the Checklist of United States public documents, 1789-1909. In using this number as a classification number in a library, it should be noted that the shilling mark (/) is used to separate what would ordinarily be a superior number or letter (the numbers or letters immediately following the line) from the main classification number, it not being practicable to print these numbers and letters as superiors in the Monthly catalogue, e.g., the number A 1.23/a: So 96/4 listed in the Monthly catalogue would be A 1.23^a: So 96⁴ in a library.

LIBRARY OF CONGRESS CARDS

Numbers to be used in ordering the printed catalogue cards of the Library of Congress are appended to entries for the more important publications. These are given at the left, with "L.C. card" prefixed. Do not confuse with the Documents Office classification number given at the right. Orders for these cards, remittances in payment for them, and requests for information about them should be addressed to the Librarian of Congress, *not* to the Superintendent of Documents.

MONTHLY CATALOGUE DISTRIBUTION

The Monthly catalogue is sent to public libraries free on application. Subscription price to individuals, 75c. a year, including index; foreign subscription, \$1.35 a year. Back numbers can not be supplied. Notify the Superintendent of Documents of any change of address.

CORRECTIONS FOR PREVIOUS MONTHLY CATALOGUES

Nov. 1932. On p. 314, insert at bottom of page the center head "Agricultural Engineering Bureau" and transfer the 2d entry from the bottom of the page beginning "*Report* of chief of Bureau of Agricultural Engineering" to follow that center head.

Apr. 1933. On p. 788, 17th line from bottom of page, change "RP542, 1-dimethylcyclopentane" to read "RP542, 1, 1-dimethylcyclopentane."

May, 1933. On p. 866, 2d line from top of page, change "Geological [1933]. Survey [2 sheets]" to read "Geological Survey [1933]. [3 sheets]"; on p. 881, 13th and 12th lines from bottom of page, change "submitted by Mr. Mulligan" to read "submitted by Mr. Milligan."

BINDING THE CATALOGUE

The Documents Office will soon issue an index to all entries in the twelve numbers of the Monthly catalogue, July 1932 to June 1933. A title-page for the twelve numbers of the catalogue will accompany the index. Duplicate numbers of the Monthly catalogue cannot be supplied.

NOTE.—This Yearbook differs somewhat in form and content from those issued for the last 6 years. It condenses the latest scientific achievements of the Department of Agriculture in the Secretary's annual report to the President, instead of giving them extended treatment in articles by individual specialists. Space thus becomes available for describing the agricultural effects of the depression and for summarizing recent developments in farm practice.

CONTENTS.—Year in agriculture, Secretary's report to the President [1932].—Agriculture and world crisis; [by L. H. Bean].—Cotton.—Wheat.—Feed grains and forage.—Livestock.—Dairying.—Poultry and eggs.—Fruits and vegetables.—Farm business and farm home.—Agricultural statistics.—Index.

Progress maps

NOTE.—These maps show the status of improvement of the Federal-aid system in each State, regardless of whether the construction has been done with the aid of the Federal Government, by the States, by the counties, or by the townships. A system of symbols indicates the type of improvement of all the roads and whether the work was done with or without the assistance of the Federal Government. Sheets are of uniform size, some States requiring 2 or more, and are so issued that they may be punched and put in a loose-leaf atlas. The maps are called progress maps, and the series will be issued periodically to show any change in improvement of the highways.

Mississippi. Federal aid highway system, progress map: [Mississippi]; data corrected to Aug. 1, 1932. Scale 1:500,000 or 1 in.=7.891 m. [Washington] Geological Survey [1933]. COMMERCE DEPARTMENT

NOTE.—In its efforts to foster, promote, and develop the foreign and domestic commerce, the mining, manufacturing, shipping, and fishery industries, and the transportation facilities of the United States, the Department of Commerce issues many regular and special publications. The free distribution of publications of the Department is confined almost entirely to Government officers, libraries, educational institutions, the press, and commercial organizations. Others may procure them, at prices stated below, from the Superintendent of Documents, Government Printing Office, Washington, D.C., to whom remittances should be sent direct, as his office is not a part of the Department of Commerce. Coast pilots, inside route pilots, tide tables, current tables, and charts are sold by the Coast and Geodetic Survey.

FARM CREDIT ADMINISTRATION

NOTE.—Under an Executive order promulgated by the President, Mar. 27, 1933, which order became effective May 27, the following existing agencies of the Federal Government, having to do solely with farm credits, were consolidated into a single agency to be known as the Farm Credit Administration: 1, Federal Farm Board; 2, Federal Farm Loan Bureau; 3, that portion of the functions of the Reconstruction Finance Corporation which has to do with the management of the 12 regional agricultural credit corporations and their branches; 4, Crop Production Loan Office and Seed Loan Office of the Agriculture Department. The chairman of the Federal Farm Board was continued in office as Governor of the Farm Credit Administration, and the Land Bank Commissioner, a member of the Federal Farm Loan Board (which was the executive head of the Federal Farm Loan Bureau), was continued in office subject to the jurisdiction of the Governor of the Farm Credit Administration.

Sec. 40 of H.R. 3835, 73d Congress (Public 10, approved May 12, 1933), provides for the perfecting of the organization.

For one publication issued by the Federal Farm Loan Bureau previous to its consolidation with the Farm Credit Administration, see p. 1030.

SPECIAL ARTICLES.—Technological changes and employment in electric-lamp industry.—Cooperative self-help activities among unemployed [4th article]: General summary.—Mortality experience of International Typographical Union, 1932; by Frederick L. Hoffman.—Conciliation work of Department of Labor, Apr. 1933; by Hugh L. Kerwin.—General survey of wages in Japan, 1932; prepared by Arthur Garrels.

NOTE.—The Monthly labor review is the medium through which the Bureau publishes its regular monthly reports on such subjects as prices, wages, industrial disputes, and employment conditions, as also the results of original investigations too brief for bulletin purposes, notices of labor legislation by the States or by Congress, and Federal court decisions affecting labor, which from their importance should be given attention before they could ordinarily appear in the bulletins devoted to these subjects. One free subscription will be given to all labor departments and bureaus, workmen's compensation commissions, and other offices connected with the administration of labor laws and to organizations exchanging publications with the Bureau of Labor Statistics. Others desiring copies may obtain them from the Superintendent of Documents, Washington, D.C., at the prices stated above.

TOPOGRAPHY DIVISION

NOTE.—The Division of Topography has prepared maps showing the rural free delivery routes. They are published in two forms, one giving simply the rural free delivery routes starting from a single given post office, and sold at 75 cents each; the other, the rural free delivery routes in an entire county, sold at 50 cents each. A scale of 1 inch to 1 mile is generally used. The rural-delivery county maps are printed from the latest negatives. It is impracticable for the Department to keep maps corrected to date at all times. Editions are not issued, but blue print copies are produced in response to special calls addressed to the Disbursing Clerk, Post Office Department, Washington, D.C. These maps should not be confused with the post route maps, for which see Monthly catalogue for February, 1933, page 660.

NOTE.—The 48th annual report of the bureau, now in preparation, is the last of this series to be published in royal octavo size with accompanying scientific papers. In the future, annual reports of the bureau will consist only of the administrative report, which will be issued in octavo form.

NATIONAL MUSEUM

NOTE.—The publications of the National Museum comprise an annual report and three scientific series, viz., Proceedings, Bulletins, and Contributions from national herbarium. The editions are distributed to established lists of libraries, scientific institutions, and specialists, any surplus copies being supplied on application. The Proceedings are usually brief technical papers and the Bulletins generally monographs based on the Museum collections in biology, geology, and anthropology. No sets of any of these series can now be furnished.

Beginning with v. 66, the Proceedings are issued only in pamphlet form. The separate papers will be sent to depository libraries and to others designated to receive them, as issued, and a title-page and index will be published for each volume so that the volume may be bound if desired.

STATE DEPARTMENT

NOTE.—With the publication of the first number of the printed Press releases on Oct. 5, 1929, the Department of State inaugurated a new publication program. The daily mimeographed releases are made available to the public weekly in printed form; also, all publications (except laws, Executive orders, proclamations, and treaties) are numbered consecutively in the order in which they are sent to press. Publications of a

similar character are brought within well-defined series, and each series publication bears a series number in addition to its publication number. Laws, Executive orders, and proclamations are issued in separate series and are numbered within each series in the order in which they are signed. Treaties are issued in a separate series and are numbered in the order in which they are proclaimed. Indexes to the Press releases are supplied semiannually, as of December 31 and June 30. The Department of State includes in the Press release series, each quarter, a complete list of its publications for the preceding quarter.

The list below frequently includes certain relevant publications issued by other agencies of the Government under requisition of the Department of State and certain relevant Congressional documents.

NORTHERN AND NORTHWESTERN LAKES SURVEY

NOTE.—Charts of the Great Lakes and connecting waters and St. Lawrence River to the international boundary at St. Regis, of Lake Champlain, and of the New York State canals are prepared and sold by the U.S. Lake Survey Office, Old Customhouse, Detroit, Mich. Charts may also be purchased at the following U.S. engineer offices: 710 Army Building, New York, N.Y.; 486 Broadway, Albany, N.Y.; 540 Federal Building, Buffalo, N.Y.; and Canal Office, Sault Ste. Marie, Mich. A catalogue (with index map), showing localities, scales, prices, and conditions of sale, may be had upon application at any of these offices.

A descriptive bulletin, which supplements the charts and gives detailed information as to harbors, shore lines and shoals, magnetic determinations, and particulars of changing conditions affecting navigation, is issued free to chart purchasers, upon request. The bulletin is revised annually and issued at the opening of navigation (in April), and supplements thereto are published monthly during the navigation season.

Complete sets of charts and publications may be seen at the U.S. engineer offices in Duluth, Minn., Milwaukee, Wis., Chicago, Ill., Grand Rapids, Mich., Cleveland, Ohio, and Oswego, N.Y., but they are obtainable only at the sales offices above mentioned.
